6. Teachers' training details

A teacher is a learner before he/she is a teacher. The spirit of bettering oneself is what defines an educationist. In this regard, it is essential for teachers to upgrade themselves, attain a set of differential skills, and improve upon practiced strategies. Getting back into gear for the new session 2019-20, teachers of Delhi Public School, Amravati, attended a workshop pertaining to Micro Teaching and Updates in CBSE syllabus at SSE level on 13 April & 6 December and 23 August 2019 respectively. The workshop was conducted by Mrs Bhavani Rao, Director Educare India Advisory, C.G. a renowned educationist, who guided teachers in adopting more efficient ways of teaching, planning, and strategizing their lessons and activities so as to maximize learning for students. The workshop entailed hands-on learning for teachers accompanied by Mr Dey's extempore activity. The workshop saw active participation from teachers who shared their experiences and showed commendable team spirit in planning out activities.

Various teachers' training sessions had been organized in session 2019-20.

S.No.	Training Topic	Date	Training Organizer	Resource Person	Attended By
1	Micro Teaching	13 – 04 – 2019	Educare India	Mrs. Bhavani Rao and her Team	All Teaching staff
2	Updates in CBSE Syllabus	23 – 08 – 2019	Educare India	Mrs. Bhavani Rao and her Team	All Teaching staff
3	Micro Teaching	06 – 12 – 2019	Educare India	Mrs. Bhavani Rao and her Team	All Teaching staff

7. Academic Achievements

While most are dreaming of success, winners wake-up and work hard to achieve it.

"I'm not in competition with anybody but myself. My goal is to beat my last performance."

Education and academic competitions are two most important ingredients of human life and these two have always been considered as important issues.

There is no doubt education is secret key of human success and the roots of education lie on competition. A child is born without knowledge and skills, and they continuously participate in competitions every part of the life, developing skills and knowledge through a learning process. Indeed, without competitions, we cannot imagine education.

Olympiads in Delhi Public School Amravati, were arranged targeting to increase students' efficiency. The following Olympiads were held in the school during session 2019-20.

- SOF National Science Olympiad
- SOF International English Olympiad
- SOF International Mathematics Olympiad
- SOF National Cyber Olympiad
- SOF International General Knowledge Olympiad
- Silverzone – International Informatics Olympiad
- Silverzone – International Olympiad of Mathematics
- Silverzone – International Olympiad of Science
- Silverzone – International Olympiad of English Language
- Silverzone – Smart Kid GK Olympiad
- Silverzone – International Talent Hunt Olympiad

8. Effort made in the field of environment education

Environment Education has generally been visualised as a multi-disciplinary area of study. The scope is broad based and encompasses physical, chemical, biological, social, cultural and human dimensions of study. All the dimensions are closely interrelated and influence one another. The main focus of Environment Education is to expose students to the actual world they live in. They have to be acquainted with the environment related issues and problems. They must also be able to look at the environmental problems and concerns, analyse, evaluate, draw inferences and equip themselves to resolve them. To achieve this, we follow the curriculum which is based on the three common aspects:

- Learning about the environment
- Learning through the environment - implying a systematic exploration through a variety of activities
- Learning for the environment by developing a genuine concern for and sensitivity towards its protection and preservation.

The common consensus on the scope and dimension of Environment Studies at each stage, as it emerged, is as follows:

- At Elementary stage we cover the things related to the child's surroundings, health and hygiene along with suitable field activities and observations.
- At Secondary stage we provide moderate exposure to various environmental concepts, plant and animal life, their interaction with the environment, pollution and other problems.

Field Activities and Observations

- Environment Day Observation
- Swachchh Bharat Abhiyan

- Plantation of medicinal herbs by Eco Club of School
- Water Day Observation - The decision to celebrate this day has been taken recently as drinking water sources are fast depleting. The world must wake up to the problem and begin conserving it.
- National Science Day Observation – We observe this day to highlight the role of science in the protection of the environment. We use this platform to put forward the message to the students.
- World Heritage Day – We observe this day to tell our students that environment includes not just the natural surroundings but also the manmade ones.
- Earth Day – We observe this day to draw the attention of our students to the problems being caused to the earth due to modernisation.
- Wildlife Week – Being very near to Melghat Tiger Reserve, observation of this week has become habit of our students.
- Van Mahotsav – We observe this week to make sure that our surrounding should be covered with green bed.

9. Sports achievements

Sports competitions inculcate the spirit of positive challenges & sportsmanship among the students and prepare them for the life ahead. Sports, Games and Physical Fitness occupy a place of importance in our curriculum. Some of the students have actively participated in **Swimming, Yoga, Squash, Malkhab and Chess**.

Prasanna Hirpurkar of Class II participated in Jr. State level Chess tournament and brought laurel to the school. Aryan Sonone of Class VIII participated in district level Malkhab tournament similarly Sachi Loya of Class VII participated in district level Yoga Competition and brought laurel to the school. Arya karwa of Class VI participated in swimming competition held in Mumbai and got Gold medal for completing the aquatic contest. Rushikesh Jamnik participated in squash competition in sub-junior national category.

10. Innovation

Innovation includes finding better ways of doing something and new ways to look at problems.

- Teaching Methodology – Thanks to fifth generation of computers which made us use of Artificial Intelligence in various ways. We are using Augmented Reality to bring the audio and video of the text in front of students' eyes.
- Library - The Bibiliotica World, our traditional Library is well amalgamated with digital library so that students can use their time in finding latest information about any topic.
- 3D Virtual Lab – To make concept of science, mathematics or any other subject more clear, 3D virtual lab is there.
- Transportation – Transportation of DPS, Amravati are well equipped with GPS and CCTV to make sure that the students are safely reaching to their home.
- Management of Information – Information regarding students, teachers, attendance, examination and timetable are managed by school's ERP.
